

Pirate Pete Board Game

Using the board on the next page and the tokens below can you make your own game?!?

Maybe add some squares where you run into pirates and have to move back two spaces.
Or the wind blows behind you so you go faster go one space further etc

Perhaps you could make a snakes and ladders style game but perhaps with rigging instead of ladders and sharks to slide down. Maybe even add a walk the plank that sends you back to the beginning.

You can use one or two dice and add other rules too.

Use your imagination and have fun?
